

From inspiration to Castings

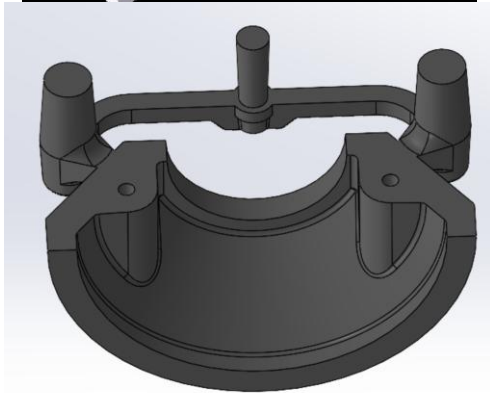

Printed Sand Molds for Short run parts

Part Design: Supplied by
our customer

CAD Model: Supplied by
you or converted by us.
About 1 week if we convert

We collaborate with the
foundry to draft the part
and create a gating strategy

Our sand printing partner
prints molds and ships to
the foundry of choice.

Final castings; only 2 pieces
needed.

The OEM for these castings
was out of business and no
patterns existed.

6 Weeks, start to finish
ASTM A535 White Iron
